

Black-widow

Description

One of the things that makes Black Widow stand out is her unique aroma and flavour. She has a pungent, earthy smell with hints of sweetness and spice. Some users have reported notes of citrus and pine as well. When it comes to effects, Black Widow packs a serious punch. With THC levels averaging around 24%, this strain is not for cannabis newbies. The high hits fast and hard, with an initial burst of energy and euphoria. As the experience continues, users may experience waves of deep relaxation and serenity.
